

PREGAN[®] 235 SPRAY

Highly active screen opener spray, free from CFC

PREGAN 235 SPRAY dissolves solvent based, dried printing inks after breaks or when printing screens begin to clog. Due to its formulation it is especially suitable for screen printing purposes, i.e. despite its excellent cleaning properties PREGAN 235 SPRAY has very little attack on photoemulsions. Its easy application prevents expensive and time consuming cleaning processes.

APPLICATION

Apply PREGAN 235 SPRAY onto the squeegee side from a distance of 20-30 cm and allow to react for a short time. After 2-3 test prints, the mesh open areas are clear again.

Notice: PREGAN 235 SPRAY dissolves all common printing inks based on organic solvents. In some cases, it can be more advantageous to use a special solvent mixture. Please ask for samples and test the suitability of PREGAN 235 SPRAY for your specific application.

COLOUR

Colourless

HEALTH HAZARDS/ ENVIRONMENTAL PROTECTION

Please follow further information given in the material safety data sheet.

STORAGE

2 years (at 20 - 25°C and tightly closed original container)
